

Topics

* Industry Applications:

- Electronics and Semiconductor
- Flat Panel Display
- Pharmaceutical and Medical
- Food and Life Sciences

* Key Areas:

- Infection Control
- Standards and Regulations
- Facilities and Filtration
- Nanotechnology
- Energy and Sustainability
- Safety and Environment

* Technical Aspects:

- Fundamentals and Simulations
- Measurements and Monitoring
- Contamination Types: Particle, Chemical, Biological
- Environmental Factors: Thermal, Electrostatics, Noise, Vibration

ABSTRACT

An abstract should be emailed to the Scientific Committee (iscc2026@jaca-1963.jp). The submission should include the following information: Author(s) and affiliation, Title, Maximum 500 words, One or more topics, Preference for oral presentation or poster

ABSTRACT DUE DATE

March 31, 2026

PAPER

The Scientific Committee will decide on the acceptance of the paper and whether it will be presented orally or as a poster. The paper and bibliography should be submitted by May 31, 2026.

Tentative Time Schedule

November 11-13, 2026	
WEDNESDAY 11	ISCC 2026
THURSDAY 12	ISCC 2026
FRIDAY 13	ISCC 2026 Technical Tours

Related Meetings November 9-10, 2026	
MONDAY 9	ICCCS meetings
TUESDAY 10	ICCCS meetings

ISCC 2026

International Symposium on Contamination Control

Harmonizing various fields
beyond the contamination control

Tokyo, Japan, November 11-13, 2026

JACA, Japan Air Cleaning Association

Greeting

The International Symposium on Contamination Control 2026 (ISCC 2026), organized by the Japan Air Cleaning Association (JACA) and the International Confederation of Contamination Control Societies (ICCCS), will take place in Tokyo from November 11 to 13, 2026.

We warmly invite you to join us at ISCC 2026.

The symposium will feature technical sessions on topics such as cleanrooms (ICR, BCR), standards, equipment, separators, cleaning, nanotechnology, sustainability, environmental engineering, risk management, and more. In particular, infection control and the operation and management of healthcare facilities, which have been challenging in recent years, are among the most important contamination control topics.

Hachioji City, located within Tokyo, is a haven of natural beauty in autumn. We hope all participants enjoy a delightful stay in Japan and gain valuable experiences both personally and professionally. We look forward to welcoming you to the Symposium.

Sincerely,
Shuji Fujii, President of Japan Air Cleaning Association (JACA)
U Yanagi, Chair of ISCC 2026

About Hachioji

The only Japan Heritage site in Tokyo Prefecture, Hachioji is blessed with abundant nature, including Mt. Takao, as well as tourist resources and rich culture with more than 100 years of municipal history. The town center is compact and has good access to anywhere. Trains and buses also make it easy to get anywhere, from tourist attractions and hotels to restaurants and shopping venues.

The city will unite to warmly welcome all participants with its hospitality.

We look forward to seeing all the participants at ISCC'26 in Hachioji, November 11-13, 2026.
